

Workshare Compare

The Evolution of Document Comparison

Get the fastest, most accurate comparison solution available

Accurate redlines produced in seconds

Enable comparison in the office or on the move

Compatible with any operating system

Workshare continues to evolve document comparison, pushing the boundaries of how fast, accurate redlines are delivered.

Now you can embed Workshare Compare Everywhere, our Cloud-based comparison solution, in other document management or creation platforms.

Drive efficiency

Create the fastest, most accurate redline possible when you need to compare two documents, no matter where you are. Get automatic change notifications when your files are modified. View changes by category. And, select the parts of a document you want to compare, including text, code, tables or images. That way you can focus on what's important to you and complete your review more efficiently.

Demand more

Don't worry about refreshing your desktop every 18 months, with the Workshare solution built in the Cloud, automatic updates are applied to the application, so you will always have the latest version. You can embed Workshare into the platforms you use everyday, and away you go.

Change matters

Comparison needs to be fast, accurate and simple. We've mastered the basics because we know change matters in your documents, even the smallest change can make the biggest difference.

Compare Everywhere

Workshare Compare is powered by the world's first and best comparison technology - DeltaView.

- Compare two documents in seconds wherever you're working or whatever platform you're on - Outlook, DMS or Office 365.
- There's no need to install any software, you can simply use our unique viewing technology to compare files, or you can customize a version that's bespoke to your business.

Compare Everywhere...

If you're a technology provider or in-house developer and would like to know how to embed Workshare Compare Everywhere in your application, contact us today.
